To: IRPS General Membership

Dear Colleagues and Friends of IRPS,

It is a pleasure to announce that the next meeting of the International Regulatory Peptide Society will be held in Washington, D.C. from June 23-27, 2025, on the campus of American University. **We, the Program Committee, warmly invite you to submit your proposals for symposia for this meeting.**

Your proposal should include the names and institutional affiliations for three speakers, a few words describing the topic that each speaker will cover, and a tentative title that unites the proposed speakers. You may submit more than one proposal, and you may also choose to include yourself as a speaker. We encourage proposals that include speakers at different stages of their careers (junior to senior faculty), as well as speakers that reflect the international composition of our membership.

We intend for speakers to receive complimentary accommodations, breakfast and lunch, and a formal dinner, but all speakers will need to pay a discounted registration cost.

The plenary speakers include our following esteemed colleagues:

- Scott Kanoski, Ph.D. University of Southern California
- Dayu Lin, Ph.D. New York University
- Vincent Prévot, Ph.D. French Institute of Health and Medical Research, Inserm
- Gina Yosten, Ph.D. Saint Louis University

Please submit your symposium proposals on or before July 7, 2024 at 5PM, EST, to us at secretariat@irps-regpep.org

Thank you for your enthusiastic contributions to the meeting and we look forward to receiving your proposals.

All the Best,

Ki Goosens, on behalf of the The Program Committee, RegPep25
